### Abstract

1. Hydrochlorides of amino acid chlorides react with triethyl phosphite with formation of the hydrochlorides of the corresponding amino  $\alpha$ -oxo phosphonic esters. 2. The hydrochlorides of diethyl glycyolphosphonate, diethyl alanyolphosphonate, and diethyl $\beta$ -alanyolphosphonate were prepared. 3. Diethyl aceturoyolphosphonate and diethyl hippuroyolphosphonate are described. © 1965 Consultants Bureau Enterprises, Inc.
